

Xinran Air Compressor

Xinran Breathing Air Compressor

Portable Breathing Air Compressor

Portable Breathing Air Compressor - convenient for your trip

Compact Series of Portable Breathing Air Compressor

Professional Series II of Portable Breathing Air Compressor

POSEIDON Compressor

US- Portable BAUER Compressor

Professional Type II of Breathing Air Compressor

Portable Breathing Air Compressor

CAPITANO 140 Portable Air Compressor

MARINER 200 Portable Air Compressor

MARINER 250 Portable Air Compressor

MARINER 320 Portable Air Compressor

Professional Type II of Portable Breathing Air Compressor

[Professional Series II Portable Air Compressor]Durability

High load drive installment is made for the requirements of both short and long time load. Structural design of 3 or 4 grades and adoption of industrial ball bearing assure its long using life in professional use. On the first grade and last grade of high pressure, piston ring is adopted with hi-tech coating, which almost has no abrasion in many strict testing. Maintenance-free and

low-pressure lubricated pump assure reliable lubricant.

[Professional Series II Portable Air Compressor]Anti-corrosion

The newly developed light aluminum alloy assures the best anti-corrosion property. Middle cooler and After-cooler are made of stainless steel, which can work properly even in extremely harsh condition.

[Professional Series II Portable Air Compressor]Economy

A new Super-TRIPLEX P31 filter element can be used for 230 diving gas storage tanks. Optional accessories: p-41 filter system can filter 530 gas storage tanks Environmental temperature of 10L diving gas storage tank is 20 .
