

Xinran Sliding-Vane Air Compressor

Xinran Sliding-Vane Air Compressor

Features of XINRAN Sliding-Vane Air Compressor

- I. Highly modular embed technology twice won the highest honor of British mechanical design-Design Council Industrial Design Award
- II. Concise appearance, perfect, save 95% control parts pipeline
- III. Motor speeds of all models (also referred to head rotary speed) are 1469 n/min, which is only 20% - 50% of screw-head
- IV. The compression and cooling of all models are completed by only one motor, which is of high efficiency and energy saving
- V. Diamond heart, 100,000 hours free of changing metal parts.
